CREATIVE CHECKLIST

What we need from you

✓ Videos

- ✓ Layered, hi-res or vector image source files (PSD | AI)
- ✓ Vector logo (EPS or AI preferred | PNG | JPG or PSD OK)
- ✓ Fonts (OTF and WOFF | licensed)
- ✓ Click-through URLs
- ✓ Third party tracking (for both HTTP and HTTPS protocols)

✓ Timeline

- Please allow 1-3 business days for trafficking, testing, and launch. Additional time may be required when working with 3rd party pixels.
- Your dedicated Account Manager is available to provide timelines specific to your campaign.

✓ AdChoices

- AdChoices is an industry standard icon  that links people to information and control over how data about their interests is used to offer them more relevant advertising.
- Exponential places AdChoices in ads that run in the US and Europe. The icon is displayed in a corner of the ad, typically the top right or left.
- You can learn more by visiting <http://youradchoices.com/> or <http://www.youronlinechoices.eu/>.

For file weight calculation, all files for the ad (.html, .js, .css, images, etc.) must be included as part of the maximum file weight calculation for all file load limits. Shared libraries are also included as part of the file weight calculation unless otherwise exempted. File weights are calculated after files have been compressed into gzip format
